

REBUILDING SERVICES

LACAL EQUIPMENT can transform your sweeper from awful to **AWESOME!**

In addition to being an aftermarket manufacturer of high-quality sweeper replacement parts, we have become the industry leader in reconditioning all makes and models of street and parking lot sweepers for government entities and contractors alike. We have reconditioned many machines from well-known brands such as Elgin™, Mobil™, Schwarze™ and Tymco™ – just to name a few. Our modern facility is equipped with state of the art engineering tools, machine & fab shops, powder coat paint system and a knowledgeable parts department to obtain the finest components and ensure that everything is right the first time.

We tackle everything from small jobs (like replacing a pickup head on a parking lot vacuum sweeper) to complete rebuilds (taking your full-size street sweeper down to the bare frame and completely replacing or reconditioning components as needed). We have the skilled technicians and the technical data necessary to do a first-class job on your sweeper. So whether your machine needs a little or a lot of TLC to get back to running great, you can always rely on LACAL Equipment to get you back on the road.

What can LACAL do for you?
