USA-Made Steel Impellers

STANDARD & CUSTOM SIZES

Lacal Equipment offers custom-design impellers as well as the standard sizes used by the well-known manufacturers. With a few measurements from you, we can manufacture an impeller guaranteed to fit your machine. Our impellers are securely welded to last; balanced for smooth, even rotation; then powder-coated for maximum rust resistance.

Get a long-lasting impeller for less from Lacal!

NOT ANOTHER LEAF SEASON LIKE THIS!

REBUILD SERVICES

for American Roads • ODB • Tarrant • Giant Vac • Dinkmar and more!

Let the professionals at Lecal Equipment do all the dirty work and transform your over-the-hill machine back into like-new condition. If your engine is in good shape and your frame is still solid, then we can replace or refurbish everything else. We help stretch your budget for maximum impact and keep you on the road for less!

Lecal is an industry leader in reconditioning leaf machines for government agencies and private contractors alike. You can count on all of our departments - engineering, welding, fabrication, powder-coating and purchasing - to provide sturdy, high-quality components that are ready for a hard day's work.

During reassembly, our technicians will clean, test and inspect every inch of your leaf machine. So whether you have a small single-axle style or a large multi-axle self-contained unit, you can rely on Lecal's knowledge and expertise to keep your machine operational for many seasons to come.

Contact Lecal today to see how easy it is to get started!
